

# 16th GAMM Workshop

## Applied and Numerical Linear Algebra with special emphasis on Linear Algebra Challenges in Machine Learning

September 15-16, 2016  
Institute of Mathematics  
Hamburg University of Technology  
Hamburg, Germany

The GAMM activity group on Applied and Numerical Linear Algebra continues its long tradition of annual workshops in September 2016 at the Institute of Mathematics of Hamburg University of Technology in Hamburg.

Special emphasis will be given this year to Linear Algebra Challenges in Machine Learning, but all other areas of applied and numerical linear algebra are welcome. The organization committee is looking forward to meeting all interested scientists in Hamburg.

### Plenary Speakers

Bart De Moor  
KU Leuven,  
Belgium

Efstratios Gallopoulos  
University of Patras,  
Greece

Philipp Hennig  
Max Planck Institute for  
Intelligent Systems,  
Tübingen, Germany

### Important Dates

Deadline for abstract  
submission: July 17, 2016

Notification of  
acceptance: July 24, 2016

Online registration starts:  
March 1, 2016
